<b>Worst</b>	-27.85%	-38.37%
<b>Median</b>	28.20%	4.33%
<b>Average</b>	11.60%	4.24%
<b>Best</b>	57.69%	57.69%

## Fund overview

This fund invests in global real estate companies with weighting towards sustainable practices. Using the independent assessment of GRESB, this fund invests in companies owning and operating real estate. This ranges from traditional office and retail to residential providers in the US, Japan and Europe, to more specialised real estate including storage companies, hospital owners and hotels. The sustainability dimension is recognised through overweighting those companies with relatively high GRESB scores and underweighting those with lower or zero scores. The fund targets a position of being fully hedged back to New Zealand dollars.

## Benefits

The Global Green Property fund can be used in a variety of investment strategies:

- To diversify a portfolio and manage risk. Property often has a low correlation to other asset classes
- Provide an income stream and protection against inflation

## Performance<sup>6</sup>

	1 month	3 months	1 year index	3 years p.a. index	5 years p.a. index
<b>Performance (after fees before tax)</b>	-5.26%	0.45%	34.22%	5.54%	4.95%
<b>Net index difference<sup>6</sup></b>	-0.28%	-0.09%	N/A	N/A	N/A
<b>Gross tracking difference</b>	-0.33%	-0.11%	N/A	N/A	N/A
<b>Tracking Error</b>	0.153%	0.095%	N/A	N/A	N/A
<b>Performance (after fees &amp; 28% tax)</b>	-4.87%	0.43%	N/A	N/A	N/A

## Index Calendar return

Welltower Inc	US	2.02%
Alexandria Real Estate Eqty	US	1.90%
Healthpeak Properties Inc.	US	1.70%

## Impact

**Carbon Footprint:** 9 metric tons per USD1m invested. 42% below global benchmark<sup>8</sup>. Operational and first tier supply chain greenhouse gas emissions

**Carbon Efficiency:** 126 metrics tons / USD1m revenue. 19% higher than global benchmark<sup>8</sup>. The index's absolute owned greenhouse gas emissions divided by the sum of revenues.

### Alignment to Sustainable Development goals:

From 1 October 2021, Green Property adopted additional exclusion criteria based on Sustainalytics Product Involvement data. The exclusions cover Controversial Weapons, Tobacco Products, Fossil Fuel, Gambling, Adult Entertainment and Alcohol involvement areas.

## Further information

The information is not investment advice. Kernel has taken reasonable steps to ensure that the information in this document is accurate and up-to-date. Kernel does not accept any responsibility for any error or omission or for any loss resulting from the use of this information, except to the extent required by law.

<sup>1</sup> 12 month Yield is calculated as the last 4 quarterly distributions divided by unit price 12 months ago. This is the experience an existing investor would have had.

<sup>2</sup> Indicative Dividend is the index calculation of the underlying dividends in the last 12 months divided by the current valuation

<sup>3</sup> Management fee before rebates.

<sup>4</sup> 12 month volatility is the standard deviation of daily returns, annualised by multiplying by square root of number of periods. The same measure for 5 years is used for the Risk Indicator.

<sup>5</sup> Beta is portfolio by comparison to the broader market benchmark of the S&P Broad Market Index (BMI)

<sup>6</sup> Performance assumes distributions reinvested. Net index difference is after management fees, stamp duties, and transaction costs.

<sup>7</sup> Growth of a hypothetical investment in the index (no allowance for fees or taxes) and no further contributions

<sup>8</sup> Benchmark is S&P Global BMI Real Estate sector. See explanation of Trucost [methodology](#)

<sup>9</sup> [Global Industry Classification Standard \(GICS\)](#)

The Top 10 investments make up 32.03% of the fund

## Index Eligibility Criteria

- Start with Dow Jones Global Select RESI Index
- Assign [GRESB Real Estate Assessment](#) score if available
- Companies ranked bottom half, weight reduced 30% each.
- Excess prorate distributed to companies ranked top quartile.

The [GRESB Real Estate Assessment](#) is structured around seven aspects and contains approximately 50 indicators. The assessment evaluates performance against seven sustainability aspects, including information on performance indicators, such as energy, GHG emissions, water and waste.
